[See attached pages 1-16].

An additional fee in the amount of \$366.00 is enclosed for the addition of 3 independent claims and 26 dependent claims.

Remarks:

Please note that the inventor is a novice, working without the benefit of legal assistance, and therefore, please keep in mind these corrections are meant to adequately answer any questions The Examiner may have, and are submitted with the full intention of correcting or adjusting the content as The Examiner may require for the purposes of patenting this invention

By the above amendment the Applicant has amended the claims to conform with the requirements of (37 CFR 1.121), correcting, as noted in item 4. of the mailing:

- A. A complete listing of all the claims is now present, and,
- B. Each claim has been provided with a proper status identifier, after its claim number, using a status identifier.

Additionally, brackets have been removed, the numbering has been re-labeled, and the claims have been rewritten in a more standardized format with the intention of clarifying them. It is hoped that the examiner will refer to the photos enclosed with Amendment A dated November 15, 2004 for a visual summary of the invention.
